The Coaching Game

The Coaching Game features 65 associative cards that explore significant themes from everyday life. A colorful and thought-provoking book expands each theme through stories, quotes, more photos and other interpretations. Four layout charts offer a structured flow to examine selected issues and focus notes assist in turning insights into actions.

The Coaching Game has been translated into more than 25 languages and has been highly praised by professionals around the world.

Punctum

Punctum fosters associative connections between photos, themes and questions.

These flexible combinations make it a fascinating tool, highly effective in dynamic therapy, teaching, mentoring, coaching and counseling.

A booklet offering suggestions on how to use **Punctum** in different settings is also included.

Faces

Faces is a powerful way to get to know ourselves through the observation of others.

Faces helps us get to know our significant others from new perspectives; it raises questions regarding relationships and the parts we choose to take in them.

99 beautiful black and white photographed faces cards, 58 reflection cards and a real mirror card, make Faces a fascinating tool for both one on one interactions and working with groups of different sizes.
